GitHub: github.com/subhampadhi33537-collab

CAREER OBJECTIVE

Results-driven B.Tech AIML student skilled in Python, Machine Learning, Deep Learning, NLP, Generative AI, FastAPI, SQL, and Software Development. Passionate about building intelligent systems, solving real-world problems, and contributing to innovative AI and software development projects through hands-on learning and project development.

EDUCATION

B.Tech in CSE (AI & ML) GITA Autonomous College, Bhubaneswar CGPA: 9.48 /10 (till 5th Sem)	2024 - 2028
Higher Secondary (+2 Science) Bhubaneswar College of Computer Science and Technology Percentage: 79.5%	2022 - 2024

SKILLS

Programming Languages: Python, C, JavaScript, HTML, CSS
AI / Machine Learning: Data Analysis, Data Visualization, Machine Learning, Deep Learning, NLP, Gen AI, RAG ,Feature Engineering, Prompt Engineering
AI/ML Frameworks & Libraries: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, TensorFlow, Keras, PyTorch, LangChain
Backend Development: FastAPI, Flask, REST APIs, Authentication Workflows, OOP, Docker
Databases: PostgreSQL, MySQL, MongoDB
Developer Tools & Platforms: Git, GitHub, Supabase, Postman, Render, Vercel, Heroku, Claude
Core Competencies: Problem Solving, Analytical Thinking, Communication, Backend Development

WORK EXPERIENCE

Artificial Intelligence Internship XTRAGRAD Pvt. Ltd.	Jul 2026 - Aug 2026
- Successfully completed the AICTE AI Development Internship, contributing as a Backend Team Member to the development of XTRAGRAD AI CareerOS, an AI-powered platform that unifies learning, career development, and recruitment into a single intelligent ecosystem. - Designed and implemented FastAPI-based REST APIs, backend modules, and PostgreSQL database integration while supporting scalable architecture, authentication workflows, and seamless communication between platform components. - Applied Backend Development, Machine Learning, Generative AI, and Prompt Engineering concepts in a collaborative development environment, strengthening expertise in building production-oriented AI applications.	
Machine Learning Internship Cognifyz IT Solutions Pvt. Ltd.	May 2026 - Jun 2026
- Gained hands-on experience in data analysis, data preprocessing, and preparing data for machine learning. - Applied feature engineering techniques to transform raw data into meaningful features for model development. - Integrated and evaluated machine learning models using Python and Scikit-learn, applying suitable algorithms and performance metrics to build predictive solutions.	

PROJECTS

Weather Alert System	Mar 2026 - Apr 2026
Live Link: weather-alert-system-c5yx.vercel.app/	
- Developed a full-stack real-time weather monitoring system using Flask, React, PostgreSQL, and weather APIs, with RESTful APIs for data and alert management. - Implemented Isolation Forest anomaly detection and rule-based alerts with interactive dashboards and email/SMS notifications; deployed the frontend on Vercel and backend on Render.	
Smart Gadget Price Estimation System	Jan 2026 – Feb 2026
Live Link: smart-gadget-price-estimation-system.onrender.com/	
- Developed an ML-based price prediction web application using Flask and Scikit-learn to estimate laptop and mobile prices from separate datasets. - Collected, cleaned, and preprocessed the datasets, performed feature engineering, and trained and evaluated machine learning regression algorithms using Scikit-learn; integrated the trained models with a Flask backend and deployed the application on Render.	
ChatNex AI	Sep 2025 - Oct 2025
Live Link: chat-nex-ai-ax1j.vercel.app/	
Developed a responsive AI chatbot using Flask, and an Open Source LLM to generate context-aware conversational responses with persistent chat history using localStorage and deployed on Vercel.	

COURSES & CERTIFICATION

Neural Networks and Deep Learning – DeepLearning.AI(Coursera)	May 2026 - Jun 2026
IBM Data Science Professional Certificate – IBM (Coursera)	Dec 2025 - May 2026
Introduction to Data Science In Python – University of Michigan (Coursera)	Dec 2025 - Jan 2026
